

## Changing KIN 488 Registered Hours

If a student plans to register for more than 1 hour of internship during the fall, spring, or summer semester, during registration before the last day of drop/add, the student must go into the system and change the number of credit hours manually.

Please note that the only "semester" that is different is the winter interim, as the registration for this part of the spring term is done by credit hour.

Follow the step-by-step instructions below to change the number of KIN 488 credit hours for which you are registered.

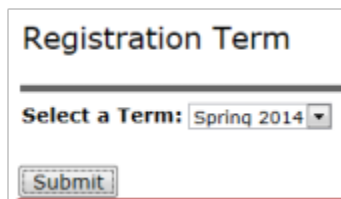

The option to manually change the number of KIN 488 credit hours will close at midnight on the add/drop date for the semester--this date is posted on the academic calendar.

On the "Student" page of myBama, click on the **add or drop classes** option in the top right-hand corner of the page.
